**Synthesis and biological activity of new steroidal heterocyclic compounds**

(2010) *Oriental Journal of Chemistry*, 26 (1), pp. 5-9.

Department of Chemistry, Faculty of Science, King Abdul Aziz University, Jeddah, Saudi Arabia

**Abstract**

Preparation of two new steroidal heterocyclic compounds derived from testosterone and pregnenolone was described. The structure of new products was elucidated by spectroscopic methods. The products were examined for their biological activity against bacteria and fungi and their results were compared with standard antibiotics.

**Author Keywords**

Biological activity; Standard antibiotics; Steroidal heterocyclic
